

Millennium Place/Emerald Hills Open House comments – Sept 8th

GARC 25m concept

- concern re: loss of student area for outdoor activities (recess, noon, phys ed)
- need 50m pool, not another 25m
- 5 schools in close proximity is a good thing
- moving to increased child & family oriented activities is a good thing (adult oriented facility)

GARC 50m concept

- already have 25m pools, a 50m would be a good addition
- 50m pool doesn't seem to meet the identified needs of most residents
- glass wall for bleacher area and force cool/dry air for spectators

Emerald Hills option

- good to distribute facilities like this throughout Sherwood Park. Allows increased walkability and bicycle access.

Millennium Place option

- Millennium is already busy enough as it is. Parking will be lost. Not getting much bang for 16.3m bucks.
- May be difficult to get staff back after laying off for shutdown
- Loss of facilities & revenue for 4 months is not acceptable. Use alternate options.

Ardrossan option

- great access for 3 schools
- not near enough to the bulk of Strathcona county population
- rural residents need local facilities
- facility needs to be accessible to majority of people
- if I lived rural I would be very excited to have this, as I do not I would wonder if it would be used enough. I would drive anywhere within Sherwood park for a pool, but not to Ardrossan.

KLC option
