

PRIORITIZED LANDSCAPE ECOLOGY ASSESSMENT

TABLE OF CONTENTS

<i>Executive Summary</i>	<i>i</i>
<i>Table of Contents</i>	<i>vii</i>
<i>List of Figures</i>	<i>xi</i>
<i>List of Tables</i>	<i>xii</i>
1.0 INTRODUCTION	1
1.1 Study Background	1
1.2 Study Objectives	2
2.0 STUDY AREA DESCRIPTION	3
2.1 Location	3
2.2 Physiography	3
2.3 Hydrography	8
2.4 Vegetation	10
2.5 Fauna	11
2.6 Land Uses	14
3.0 PLANNING FOR SUSTAINABLE LAND USE IN STRATHCONA COUNTY	15
3.1 The Emerging Paradigm of Ecosystem and Landscape Management	15
3.2 The Role of Prioritized Landscape Inventory in Land Use Planning	17
3.3 Implementation of Conservation Easements on Private Lands	18
4.0 STUDY METHODS	21
4.1 Literature Review	21
4.2 Interpretation of Aerial Photography	22
4.3 Field Verification	22
4.4 Data Analysis, Synthesis and Presentation	23

5.0	EFFECTS OF LAND USE ON WILDLIFE HABITAT	24
5.1	Agricultural Development	24
5.2	Residential Development	27
5.3	Industrial Development	29
6.0	WILDLIFE COMMUNITIES AND HABITAT REQUIREMENTS IN STRATHCONA COUNTY	31
6.1	Waterbirds	31
6.2	Songbirds	39
6.3	Raptors	42
6.4	Small Mammals	45
6.5	Semi-Aquatic Mammals	47
6.6	Ungulates	50
6.7	Herpetiles	53
7.0	SIGNIFICANT HABITAT ASSOCIATIONS IN STRATHCONA COUNTY	55
7.1	Lake and Wetland Habitats	55
7.2	Riparian Habitats	59
7.3	Woodland Habitats	61
8.0	WILDLIFE HABITAT UNITS OF STRATHCONA COUNTY - DESCRIPTION AND OCCURRENCE	65
8.1	Upland Wildlife Habitat Units	66
8.1.1	Upland Poplar Forest	66
8.1.2	Upland Mixedwood Forest	67
8.1.3	Upland Forest / Small Wetland	68
8.1.4	Corridor (Linking Forest Units)	68
8.1.5	Upland Coniferous Forest	69
8.2	Wetland Wildlife Habitat Units	69
8.2.1	Large Marsh	70
8.2.2	Large Bog	70
8.2.3	Large Slough	71

8.2.4	Wetland Complex Without Open Water	71
8.2.5	Wetland Complex With Open Water	72
8.2.6	Drainage Course	73
8.2.7	Swamp / Shrub Wetland	74
8.3	Lake Wildlife Habitat Units	74
8.3.1	Lake - Emergent Zone	76
8.3.2	Lake - Free Floating / Leaved Zone	77
8.3.3	Lake - Submergent / Open Water Zone	77
9.0	APPLYING LANDSCAPE ECOLOGY AND CONSERVATION BIOLOGY PRINCIPLES TO PRIORITY HABITAT DESIGNATION IN STRATHCONA COUNTY	78
9.1	The Effects of Habitat Fragmentation	78
9.2	The Effective Size of Wildlife Habitat Units	79
9.3	Connectivity Between Wildlife Habitat Units	82
9.4	Biological Characteristics and Functions of Wildlife Corridors	88
10.0	PRIORITY WILDLIFE HABITAT UNITS	
10.1	Priority Wildlife Habitat Designation Criteria	93
10.1.1	Ecological Integrity	94
10.1.2	Size	95
10.1.3	Connectivity	95
10.1.4	Diversity	96
10.2	Distribution of Priority Wildlife Habitat Units	96
10.2.1	Priority 1 Wildlife Habitat Units	96
10.2.2	Priority 2 Wildlife Habitat Units	97
10.2.3	Priority 3 Wildlife Habitat Units	97
11.0	HABITAT RESTORATION ECOLOGY AND APPLICATION TO STRATHCONA COUNTY	98
11.1	Restoration Ecology Theory	98
11.2	Habitat Restoration Tools	99

11.2.1 Restoration of Aquatic and Wetland Habitats 100

11.2.2 Restoration of Shoreline and Riparian Habitats 103

11.2.3 Restoration of Upland Forested Habitats 105

11.3 Habitat Enhancement and Restoration Initiatives in Strathcona County 108

12.0 PRIORITY RESTORATION WILDLIFE HABITAT UNITS 112

12.1 Priority Restoration Wildlife Habitat Designation Criteria 113

12.2 Distribution of Priority Restoration Wildlife Habitat Units 114

12.2.1 Priority 1 Restoration Wildlife Habitat Units 115

12.2.2 Priority 2 Restoration Wildlife Habitat Units 116

12.2.3 Priority 3 Restoration Wildlife Habitat Units 116

13.0 LITERATURE CITED 117

- APPENDIX A:** Mammal species expected to occur in Strathcona County
- APPENDIX B:** Bird species expected to occur in Strathcona County
- APPENDIX C:** Reptile and amphibian species expected to occur in Strathcona County
- APPENDIX D:** Database of Priority Wildlife Habitat Units in Strathcona County

LIST OF FIGURES

Figure 1: Location of Strathcona County study area	4
Figure 2: Natural Regions / Subregions Within Strathcona County	6
Figure 3: Key Hydrological Features	9
Figure 4: Multiple-Use Modules	83
Figure 5: Extinction Vortex for Small Wildlife Populations	86
Figure 6: Optimal Refuge Parameters Required to Conserve Wildlife Habitats in Strathcona County	87

LIST OF TABLES

Table 1:	Faunal species diversity reported for areas adjacent and overlapping Strathcona County	12
Table 2:	Wildlife Habitats in the Boreal Dry Mixedwood Natural Subregion	13
Table 3:	Other sources of information on wildlife habitats in Strathcona County	21
Table 4:	General types of wetland losses common to mid-continental North America	26
Table 5:	Vegetation parameters associated with bird habitats in forested communities	40
Table 6:	Habitat capability classes for red squirrels in Alberta	46
Table 7:	Abundance of beaver families in various areas of North America	47
Table 8:	Populations of selected ungulate species in Elk Island National Park	50
Table 9:	Status of deer populations in the Parkland Natural Region	51
Table 10:	Wildlife indicator species for different age classes of aspen	64
Table 11:	Existing Wildlife Habitat Units in Strathcona County	65
Table 12:	Reasons for movement of terrestrial vertebrates	88
Table 13:	Organisms that are susceptible to local extinction processes	90
Table 14:	Criteria for prioritizing wildlife habitat units	93
Table 15:	Areal distribution of Priority Wildlife Habitat Units in Strathcona County	96
